- A command line application that helps the user manage their employees along with the roles and departments that might be involved in the user's company

PROFESSIONAL EXPERIENCE

Unbranded Brewing Company

Lead Cellar-Man

Miami, FL

May 2020 – September 2021

- Reduced product loss in order to optimize production output to 150-200 BBLs per month
- Communicated with the brewing team to plan production days and ran key metrics related to final product volume
- Organized the packaged product in the walk-in refrigerator while preparing and sending orders for distribution
- Monitored all products inside fermentation vessels and brite tanks until they were ready for packaging
- Maintained production responsibilities alongside the head brewer in order to meet the product yield goal
